THE GOVERNOR'S MESSAGE.

Governor Kinkaid's first biennial message to the Legislature was published in full in the *Enterprise* of this morning. It is lengthy, occupying over six columns in fine type, and the *Gazette* has no space for its reproduction. The main features of the message, however, may be briefly outlined.

The message recommends the adoption of the Amendment to the State Constitution, changing the date of the assembling of the Legislature from the first Monday in January to the first Monday in February, because under the present rule there is not sufficient time for the preparation and scrutiny of the reports of the State officers.

It is suggested that the Interior Department be asked to make some provision for the Washoe Indians, as the pine-nut is rapidly disappearing.

The receipts of the State Government in 1880 were \$151,244; the expenditures, \$211,346, making a deficit of \$60,102. The message urges the necessity of economy, and deprecates any large increase in the present rate of taxation. The Governor thinks a great mistake was made when the tax rate was cut down so low as 55 cents on the \$100. To meet current expenses it is recommended that the State borrow \$100,000 from the School Fund, at 4 per cent., and borrow another \$100,000 on 6 per cent. bonds.

The message bespeaks fair treatment for railroads, and calls attention to "the constantly increasing cry of our people for some relief from the heavy burdens imposed upon them by the Central Pacific in the matter of freights and fares."

The Governor earnestly recommends the creation of a State Board of Equalization. In illustration of the inconsistency of the present system he shows that the C. P. main track is assessed at \$6,000 per mile in Lyon, Churchill, Humboldt and Elko; \$9,000 per mile in Washoe and Eureka, and \$12,000 in Lander. There are 453 miles of the main track of the C. P. in this State. Their valuation for assessment is \$3,135,600. At the rate fixed by the California Board of Equalization, the valuation would be \$4,973,000, and there would be a corresponding increase in the valuation of the side track. If both the main and the side track were valued at the California rates, the assessable valuation of the road in Nevada would be increased by \$1,810,132.

The orphans in the Home at Carson do not escape benevolent mention, and the Governor bespeaks an ample supply of good water for their use. The management of the Home and also of the State Prison is commended.

The message recommends that the insane of the State be kept at some private institution within our borders, and that the State should ultimately build an asylum, which it cannot now afford to do.

The Governor hopes to hear, in another year, "from these 300,000 Cloud river salmon fry that were placed in the Truckee river. He states that Commissioner Parker has arranged for a large supply of carp and eels to be distributed next year. The message recommends that the fishery laws of this State and of California be equalized.

On the topic of Public School funds the message expresses gratification at the passage of the lieut. land grant. This grant will ensure, it says, a magnificent estate to our State School fund, and place it in a few years beyond the need of State aid.

The message contains much interesting information, and treats of a variety of other subjects than those above touched upon. Altogether, it is a creditable State document, but if one-half as long would be more generally read than it is apt to be.

The Georgetown stage was robbed one mile east of Auburn yesterday at noon, by two masked men. They took the mail and express bags. Amount of loss not known yet.

F. A. Tittle thinks Arizona a good enough place for capitalists, but not for poor miners.

Sixty-one drunks were arrested in San Francisco on New Year's day.

TWO ESTEEMED, BUT SHALLOW CONTEMPORARIES.

"The *Reno Gazette*, answering to the daily *Report*'s remarks upon the silver dollar, quotes as its authority for its views Adam Smith and John Stuart Mill. Just so: but it would have been a good thing for this country if we had been less inclined to adopt the views of English political economists as a guide for United States financial operations. The financiers of England, aided by a little corruption and a great deal of ignorance on this side of the ocean, had their own way with us for a long time and have too much influence now. When England legislates for American finance we need not say who gets the best of it."

This bit of clap-trap is from the *S. F. Report*, and is endorsed by the *Gazette*'s classical local contemporary as a "good right-handed side-wiper on the mug." The *Journal*'s contempt for the authorities on the English language equals the *Report*'s contempt for the English authorities on finance.

We have seen nothing more silly and shallow in a long time than the above from the *Report*. It is a demagogic appeal to prejudice, and lacks the semblance even of an argument. Political economy is a science, and its laws are true in every age and in every country. The principles demonstrated by Adam Smith and John Stuart Mill are necessary truths. It is as absurd to object to them because they were first propounded by Englishmen as it would be to object to Colenso's algebra as unsuited for American pupils because it is the work of an English authority. Of course, the mere opinion of Smith, or Mill, or Bentham, or Ricardo, or Bastiat, or any other writer, is not binding upon any man. Neither is anyone bound to accept the speculations of an astronomer. But to the demonstrated laws of political economy, as to Kepler's famous laws of astronomy, no person can refuse to subscribe, if he studies and understands them. We suspect that the profound contempt which our two esteemed contemporaries feel for British writers on political economy is based on a profound ignorance of what those writers have written.

THE STREETS.

The *Journal* approves Mr. Watson's suggestion to put gravel on the streets. It is true that gravel would improve their condition, at least for a time. But the use of gravel is only a temporary expedient. Any one who has had practical experience of roads knows that gravel is constantly sinking and requires perpetual renewing. Gravel never packs into a smooth hard surface. The stones are so unequal in size that displacement is constantly going on, and the streets are never free from rolling stones, which every horseman knows are a fruitful cause of lameness in horses. Macadamizing is more expensive to begin with than dumping gravel on the streets, but we are satisfied that nothing short of macadamizing will do for the two streets named. And macadamizing, thoroughly done, is permanent. So treated, the streets would require scarcely any repairs for twenty years, and would be free from mud in winter and from dust in summer. The prisoners in the jail could be made to break and haul the stone, and to work on the streets. The work of improvement could be done by easy stages, a few rods being macadamized at a time. Thus the whole extent of the business streets could be gradually put in capital condition at a trifling cost to the tax-payers. The County Commissioners should take some action in this matter.

EDITORIAL NOTES.

"Last Saturday" morning, says the *Republican*, "Henry Herzinger, of the *Tri-Weekly Herald*, was stopped in Grass Valley while on his way to the depot and relieved of 50 cents, all the money he had in his pockets." The exact nature of Mr. Herzinger's connection with the *Herald* is not definitely stated in the foregoing, but, from the circumstance that he had only fifty cents in his pocket, it may be judiciously inferred that he is the editor. On the other hand, it might be held that the fact of his possession of fifty cents argues that he cannot be an editor. We are still in doubt.

Senator Blaine's proposal to reduce the postage on letters to two cents seems a little rash in view of the fact that the Postal Department is not self-sustaining at the present rates of postage. The expenditures for the last fiscal year were \$36,101,830, and the receipts \$33,315,479.

Senator Sharon is really on the way to Washington, D. C.

MARK TWAIN'S INSANITY.

Fancying Himself the Obelisk, and Troubled About His Hieroglyphics.

The New York *Sun* of Dec. 28 came to hand to-day with its letter from Hartford, Conn., concerning Mark Twain and his alleged delusion that he was the Egyptian Obelisk. The whole thing is a clever joke. The letter may have been written by Twain himself. The *Sun*'s correspondent says that he went to Twain's backyard on Christmas, and then continues his narrative as follows:

There I discovered the humorist, standing on an empty dry goods box. His posture was very erect. His arms were tightly pressed against his sides. He wore a long ulster, reaching to his ankles, and on his head a high peaked hat, procured during his travels in the Tyrol. His face was solemn.

"Hello, Mark," said I; "what are you doing on that box? Merry Christmas!"

He stiffly inclined his head. "Didn't you know," he demanded in slow, grave tones, "that I antedated the Christian era by many centuries? What in thunder do you mean in talking Christmas in my presence?"

"Come, come," said I, "no joking. Get down off the box and go in where it's warm."

"If you refer to the pedestal," he replied, "I can't get down unless I'm lowered. And as to the temperature, it has little effect on a monolith, seasoned as I am seasoned."

"You look like a monolith," I admitted, "in that ulster and that hat." "You really think so?" he eagerly asked. His features relaxed to an expression something like complacency, and he sat down upon the edge of the box and began to drum against the side with his heels. "You really believe I'm the genuine, only original obelisk?"

"Obelisk!" said I. "I saw the obelisk day before yesterday in New York. They've got it as far as the trestlework. You're a humorist, not an obelisk."

Mark Twain immediately ascended the box again, while his features once more assumed their stony look. "You have been imposed upon," he remarked with great dignity. "That thing in New York is bogus. It is a practical joke of Corning's. It is a Cardiff giant of an obelisk, a composite, plaster fraud concocted on the voyage over, and palmed off on an unsuspecting community. The real obelisk was shipped to Hartford by Freight Number 27, New York, New Haven and Hartford Railroad. You behold it at this identical moment."

I took off my hat. This seemed to please him a good deal.

"Excuse me," he went on, "if I am a trifle touchy on the subject. Every monolith is naturally sensitive when his authenticity is called in question. Don't I appear stiff and hard enough to satisfy the most skeptical?"

"You look stiff and hard enough," said I, "but where are your hieroglyphics? That's the test of a true obelisk—the hieroglyphics."

"Just what I expected," he returned, with some show of feeling. "There don't appear to be any hieroglyphics, perhaps you think singular, but I'd noticed the fact myself, and it's given me considerable concern. Don't those hieroglyphics?" he continued, getting excited. "I don't know what to make of it. Sometimes I think Corning took 'em and plastered 'em onto his sham statue. Then I think Marshall Jewell's stolen 'em for a telegraphic cipher. Then again I surmise that they've merely struck in, and will blossom out again as soon as I've got bleached. But you'll allow that it's putting a respectable Egyptian antiquity at a disadvantage to steal his hieroglyphics. Any fool can come along and say, 'You're no obelisk. Where the d—l are your hieroglyphics!'"

Drama and Dance.

The "Streets of New York" will be reproduced in the Nevada Theatre to-morrow evening by the Reno Dramatic Troupe. The play is justly popular and abounds in thrilling incidents. The "fire scene" and the "snow scene" are realistic spectacles. At their first performance the troupe gave satisfaction. They have since been in constant rehearsal, so that considerable improvement may fairly be expected. After the play to-morrow evening there will be a dance in the Theatre. Those holding reserved seat tickets will be admitted to the dancing floor without extra charge. Reserved seats can be procured at the postoffice.

Modern Mound Builders.

The True Pioneer says there are probably about eighty snow mounds in and around Candelaria which have been thrown up by the frugal denizens. They vary from three to ten feet in height, and contain from seventy to four hundred cubic feet of snow. Their uses are for the preservation of the snow for the manufacture of water. By thus making mounds of the snow it is kept from melting for a greater length of time than when left lying flat and exposed to the full rays of the sun and the warm winds.

Vick's Floral Guide.

Of the many guides and seed and plant catalogues sent out by our seedmen and nurserymen, and that are doing so much to inform the people and beautify and enrich our country, none are so instructive as Vick's Floral Guide. Its paper is the choicest, its illustrations handsome, and given by the hundred, while its colored plate is a gem. This work, although costing but 10 cents, is handsome enough for a gift book, or a place on the parlor table. Published by James Vick, Rochester, N. Y.

Notice.

All persons having claims against the Nevada & Oregon R. R. Co., will please file the same in duplicate with the Secretary, W. C. Starr, at the Company's office, Reno, Nevada, on or before the 15th day of January, 1881.

A Contest For the U. S. Senatorship.

Adolph Sutro came up from San Francisco this morning and took the train for Carson. The papers of the capital are throwing out strong hints that he means to contest the U. S. Senatorship with Fair. The Appeal of yesterday said, moreover: "It is believed that Sharon is at the bottom of a scheme to 'walk Fair's log,' and already J. C. Hagerman, Col. Ellis, Judge Sewell and Kirkpatrick are talked of as likely to be men put forward. It is considered already a dead thing that Sharon is behind the scenes with a good heavy sack ready to sink Fair's chances if there is a ghost of a show."

Seven Prisoners Released.

T. V. Julien, Commissioner of the U. S. Circuit Court, to-day heard the case of the seven men confined in the county jail in default of the payment of a fine of \$1,000, imposed for trespassing on the Pyramid reservation. It being shown to his satisfaction that the prisoners were unable to pay the fine, and that they had already been imprisoned thirty days, in conformity to the statute, their release was ordered. They were accordingly liberated. The prisoners looked wan and pale when they emerged into the light of the outer day, but a little fresh air and exercise will soon restore them to health, it is hoped.

A Rich Discovery.

A well known mining man came into the GAZETTE office to-day and displayed a tin can containing about thirty inches of pure thread gold. He said that he had washed it out from a claim in Humboldt county, Nevada, and that he believes there is an immensely rich ledge in the neighborhood of the place where the gold was obtained. The sight of native gold from a Nevada claim is unusual in these days.

Fine Trout.

C. H. Haskell has an artificial ice pond of four acres, half a mile above Washoe. Two years ago he put in 5,000 eastern trout. They are now some of them nearly a foot long, and he will soon have all the fish he wants. He can get a dollar a pound in San Francisco for such fish.

The Springfield and Winnemucca Railroad.

Says the State Line Herald, of Lakeview, Oregon: "The Springfield and Winnemucca line is reported to be an assured fact. It will pass through this section, entering the county at or near the northwest corner, where it emerges from the forests of the Cascade Range into the Klamath Marsh. Parties who have interests here, and who are acquainted with Sears and Pengra, say that it is sure to be built, and that, too, without delay."

Grand Jury.

The Grand Jury this morning made a partial report, finding true bills against Oscar Tharp, for embezzlement, and Dan McCarty for burglary. They made no report on the case of Peter Dalton.

A Great Country for Apples.

MILFORD, Jan. 3, 1881.

Over ten thousand boxes of apples were raised in Lassen county the past season. On my orchard I had 3,332 boxes of winter apples, raised at Milford.

TALK IS CHEAP,

And So Are

FINE Clothing, BOOTS, SHOES, HATS

Gentlemen's AND BOYS FINE FURNISHING GOODS.

If you go to the right place to get them. This is a mighty important point, for some people who assert that they sell cheap do nothing of the kind. We do not boast when we say that we defy competition in prices in anything in our line. Besides this we have only one price. We have no preferred customers. Everybody is treated alike at our establishment. Our stock is the largest and most complete ever offered in any part of this State. Everything we have is new. No old, musty and out-of-date goods can be found on our shelves. We receive daily by rail and express the latest and best goods, which are obtained at first hand and sold at prices below those now prevailing in New York and Chicago. Let the people come and judge of our prices and examine our stock before going into those humbugging, Cheap John shops, in which they drum into the ear of the customer that they sell at cost and even below cost. Anybody with common sense must know that they lie. No storekeeper sells goods for the fun of the thing. We make a profit on everything we sell, as every honest merchant does, and don't print foolish falsehoods in the vain hope of deceiving the public. One must make a profit to live. We particularly call attention to our full stock of fancy underwear, such as is kept nowhere else in Reno. This class of goods form one of our specialties. Orders from the country promptly attended to. Look out for the White Building with the Gold Sign.
